Neurofeedback
Performance Tracking
and Report Generator

For Neurofeedback Professionals

Neurofeedback Performance Tracking and Report Generator, stand-alone, battery-powered test unit allowing unmatched accuracy, online analysis and reports prepared by EEG Expert, pre and post CPT and session-by-session performance tracking.

Features:

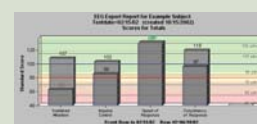

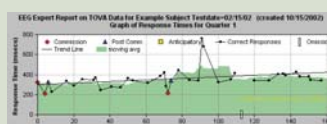

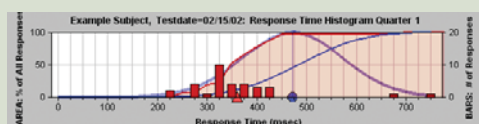

- Battery-powered, stand-alone unit for performing client process tracking
- Administers multiple types of Continuous Performance Tests with unprecedented accuracy
- Input: two high endurance precision buttons, ergonomically positioned for simultaneous right and left hand input
- Visual stimulus: high-brightness 3x3 LED array
- Auditory stimulus: three-channel sound generator driving internal speaker. Also supports headphones (not included)
- Time measurement resolution 0.1msec
- Memory holds up to 1791 stimulus responses
- Professional Neurofeedback-specific analysis done at EEG Expert (www.eegexpert.com)
- Rechargeable batteries (one charge good for more than 50 tests)
- Synchronization signal output for advanced applications and synchronization with brainwave monitoring devices

EEG Expert

EEG Expert offers unique advantages for day to day Neurofeedback work. It is a comprehensive tool for combining test results, client histories, and client progress reports. EEG Expert is driven by the expert knowledge of Sue and Siegfried Othmer.

- Create visually rich reports from QIK test and T.O.V.A.® data for a significantly better quality of interpretation and higher impact on your clients.
- Highly detailed and easily readable charts
- Compare and organize reports
- Automatically updates with the most current EEG and scientific developments.
- All you need is an internet browser. Even a slow internet connection will do fine.
- Become a member and get your first 3 reports free!

Sample charts included in every EEG Expert report, based on your QIK test and T.O.V.A.® data:

EEG Expert Costs

\$15 for client setup, unlimited QIK and symptom tracking once you have added your client to the system.
